by Chang-ho Park : **Major Agronomic Characters and Chemical Constituents in Cassava: Responses to Varietal and Agronomic Factors**

ISBN : #365916870X | Date : 2012-07-30

Description :

PDF-9294b | Cassava is a very important staple food for more than 500 million people following maize, rice, wheat, and potatoes.

Recent estimates suggest that its roots provide 8% or more of the minimum calorie requirement for more than 750 million people.

Besides, use for animal feed, starch, and bio-fuels with cassava is increasing tremendously in many countries, being under

consideration as a very importan... *Major Agronomic Characters and Chemical Constituents in Cassava: Responses to Varietal and Agronomic Factors*
