Description :

PDF-d9763 | This latest book from the Basher Science series investigates the unseen world of microbes. Basher's distinctive style presents key microbes as characters with their own voice and personality. Microbiology investigates the "teensy tykes" such as algae and bacteria that are all around us in the living world, as well as a range of so-called "minibeasts", but these are not the usual creepy-crawlies th... *Basher Science: Microbiology*
